DETROIT ARCHITECT ENGAGED ON PLANS For Woolen Co. Improvements —Activity in Real Estate Circles—Present Time Most Favorable For Building.

Albert Kahn of Detroit is the architect who is at present working on the plans for the enlargement of the Woolen company's property. As soon as these are completed and accepted, bids for the improvements will be invited. In the meantime the work of demolishing the old buildings on the site of which will be erected the new modern structures, is being rapidly pushed.

Inquiries for building lots continue to grow, and scarcely a day passes but what several sales are recorded. A considerable amount of outside capital is coming into the city for investment in realty. The intention of the Woolen company to push ahead to completion its improvements on which it will this year spend as a starter no less than \$100,000 on the building to occupy the old Koper property, has given a stimulus to real estate which has never previously, to such an extent, been subjected.

The city contractors without exception are being inundated with requests for figures on buildings which it is proposed to erect this spring. Vernon Lowe of the lumber firm of Lowe Bros., in conversation with The News-Times Tuesday, said that the present time was particularly favorable for building, inasmuch that the price of material, but would also secure the advantage in the price of real estate which is now advancing.

TO FURNISH BADGES FOR STATE BOWLING MEET

The Mishawaka Chamber of Progress will furnish the badges for the Indiana State Bowling tournament which will be held in this city April 19 to 26, according to a plan formulated at the meeting of the members Monday evening. It was the desire of the organization to materially assist the officials of the tournament in some manner, and it was decided that this would be a splendid method. It is customary to furnish each individual entry in the tournament with an official badge.

Several communications regarding factory propositions received early in the year were discussed. The president stated that the concerns requesting information in regard to shipping facilities in this city and other general manufacturing advantages has been replied to, and one concern had stated that it was probable that they would consider Mishawaka in a contemplated change this summer.

J. Q. Swanger, on the hitching rack committee stated that he would probably complete arrangements for the further installation of racks in a short time. The racks constructed by the city last fall have proven to be very advantageous to the farmers as it is said that the racks are full nearly every day while on Saturdays it is impossible to find a place to hitch.

Mr. Swanger was also appointed to make arrangements with the city to place signs on all of the telephone poles in the city urging the citizens to trade with the merchants of the city. The following is the inscription on "Trade in Mishawaka."

Following the business session Messrs. Lehman and Swanger entertained the meeting and served refreshments.

Honest Advertising BY HONEST DOCTORS.

OUR POLICY

For years has been to base our advertising matter upon the teachings and practice of the leading medical men of the world. To adhere strictly to the truth in our matter and in our statements to our patients, dealing with them at all times fairly and squarely, and that is just the reason we are here today. Other doctors come and go but our work is more appreciated and our practice is growing from year to year. Since we located in South Bend, we have seen many number of doctors locate here, stay a short while, pull up and move on. There is a reason for our being able to successfully breast the on-slaughts, and unfair attacks of many of our competitors, and thrive in spite of their advantages and empty talk. This reason is TRUTHFUL ADVERTISING AND HONEST DEALINGS.

Honesty Best Policy

When we tell a man he is going to get 314 or 606, he gets it and not a dose of colored water, or in some instances we know of, plain, clear water. Our methods are clean and no one can tempt us to do a dishonest deed or criminal act. Our reputation is worth more to us than all your money. Honesty makes for permanence, whether it be in the construction of a great building or the foundation of a successful business. Truthful advertising and honest methods will pay. The cheat, the liar, the faker, the incompetent, the unworthy or dishonest one who makes false promises or takes unfair advantage, will fail every time.

The Most Prevalent and Serious Disease Among Men

Past Forty
A CORDING to the Secretary State Board of Health, the Prostate gland is perhaps the most important gland in the body, being of extreme importance to the mental, physical and sexual stability of man. Diseased conditions of this gland are accompanied by the most pronounced disturbances of other functions, such as weakness, loss of ambition, strength, vim, vigor, vitality, headache, backache, dizziness, loss of appetite, mental hallucinations, a feeling of impending danger, weak trembles, cold feet, specks before the eyes. We have cured these diseases in from 15 to 30 days where uncomplicated. No weary weeks and months of waiting and worse than useless drugging to ruin your stomach. No knife. No pain. No loss of time. Drugs never cure a diseased prostate.

For Blood Diseases 606-914 For Blood Diseases

ARE you afflicted, mortified, demoralized, discouraged, tortured and in danger from this awful life-consuming poison in your blood? You are if you have these symptoms.

Rash, Sores, Ulcers, Sore Mouth and Throat, Swollen Glands, Mucous Patches, Hair or Eyebrows falling out, Skin Blisters, Copper-Colored Spots, Rheumatic Pains, Aching in Bones and Joints, Eczema, Itching, Burning, Nervousness. If you are suffering from Specific Blood Diseases, this sovereign remedy cures quickly. No weary months and years of worse than useless drugging to ruin your stomach, and make you more miserable. No loss of time. No pain. No danger.

Private Contracted Diseases

A PHAMPHLET published by the American Medical Association shows that all literature conclusively points out that these diseases are more perilous to the individual, the family and state than are all other ailments combined. The Secretary of the State Board of Health claims they are doing more harm to the race than tuberculosis or cancer. When neglected or improperly treated, they may cause death due to heart or brain trouble. A severe and painful form of rheumatism, loss of moral tone, mental disturbances, Epilepsy, or great swelling and inflammation, various forms of paralysis, loss of vision and power, grave kidney and bladder trouble, diseases of the prostate, stricture, sterility and a life of misery and torture. There is just one way to avoid this fatal error. See a physician who specializes in these diseases and who is equipped and is competent to make all necessary tests. We offer you just such services. We have cured uncomplicated cases in from 10 to 40 days. Why treat for months? Drugstore remedies and injections never cure, they only suppress the disease.

SAFETY FIRST

Don't hesitate or neglect your condition because you fear to ask a physician's advice. Do not try to treat yourself for any special, private or chronic disease, for you cannot be sure that you have diagnosed your affliction correctly. Most potent so-called cures are useless and are positively dangerous. You cannot afford to experiment. Common sense and judgment will tell you that none but Reputable Specialists should be trusted.

GET WELL

Don't Treat Elsewhere Until You Have Seen Us and Gotten Our Prices Which Are a Third to a Half Less Than Others, and Which You Can Arrange to Pay When Cured. Make Us Prove It.

HEAVY PENALTY

Nature exacts a heavy penalty from those who neglect private disease. Even the strongest athletes soon break down and become weaklings from these diseases. It is claimed by leading authorities that these diseases are doing more injury to the race than tuberculosis or cancer. According to a pamphlet issued by the American Medical Association, diseases of this kind are more perilous to the individual, the family and the state than are all other ailments combined. You will not escape unless you receive the right treatment now. Most people spend enough money foolishly every month to pay for a cure. Do your duty. Avail yourself of a free examination. No matter whether your case is simple or complicated, proper remedies will be administered at a cost of one-third less than other doctor's treatment, which you can arrange to pay when cured. Other doctors come and go, but our work is appreciated more and more every day. Offices arranged
